

**Statewide Transportation Planning Framework
Community Workshops
Youth Participation Needed!
November 2008**

Arizona School Districts:

The Arizona Department of Transportation (ADOT) is holding a series of community workshops throughout November for the ongoing “**Building a Quality Arizona**” or “**bqAZ**” statewide transportation planning framework process. This process began in early 2008 when communities provided their thoughts on future transportation needs. Our team has incorporated that information into possible future scenarios which will be presented for review and comment during the upcoming workshops.

You, your teachers, students, and parents are encouraged to attend the workshops and contribute your ideas and insights.
